# INDEX TO VOLUME 18

A

Abnormality, congenital, transposition of great cardiac vessels with special reference to phylogenetic theory of Spitzer, 635*
Abramson, David I., Zazeela, H., and Oppenheimer, B. S., 290
Acrocyanosis, effect of sleep on skin temperature in, 253*
Adrenaline (See suprarenal substance)
Adson, Alfred W., Kvale, W. F., and Allen, E. V., 537
Age, old, electrocardiogram in, 692
  sex and hypertension in, myocardial infarction due to coronary occlusion, 632*
Allen, Arthur C., 129*
Allen, Edgar V., and Kvale, W. F., 519, 546, 557
—, —, and Adson, A. W., 537
Allen, Frederick M., 772*
Altschule, Mark D., 1
—, and Blumgart, H. L., 773*
—, Gilligan, D. R., and Linenthal, A. J., 628*
American Heart Association, announcement, 132
  fifteenth scientific meeting, discussion of papers, 593
Amphetamine sulfate, effects, comparative of, paredrine and propadrine on blood pressure, 89
Andrus, E. Cowles, and Wilcox, H. B., Jr., 244*
Aneurysm, dissecting, of aorta, 67
  intrathoracic, 771*
  of popliteal artery, 471
    pulmonary artery, 562
    ventricle, electrocardiographic findings in, 630*
  ruptured, 471
Angina pectoris, caused by hematomyelia, 248*
    due to coronary artery disease, drug treatment of, 254*
    effect of oxygen on exercise tolerance of patients with, 150
    electrocardiogram, four lead of, new diagnostic features in, 128*
    electrocardiographic alterations after effort in normals and patients with, with special reference to chest leads, 245*
    glucose, hypertonic solution of, in, 411
Angina pectoris—Cont'd
    in hereditary xanthomatosis, 633*
    nerve pathways, physiology, symptomatology, and treatment, 640 (B. rev.)
    patient with, whose adrenals have been irradiated, tendency of electrocardiogram to become normal in, 639*
    value, diagnostic, of triphasic rapid wave in, and coronary syndrome, 246*
Anoxemia, experimental electrocardiographic changes in health and disease during, 257 (B. rev.)
Aorta, abdominal, effect on blood pressure of constriction of, above and below site of origin of both main renal arteries, 250*
    embolism and thrombosis of, 57
  aneurysm, dissecting of, 67
  chemoreceptors of, location and function of, 504*
  medionecrosis idiophatica cystica, of, 188
  roentgen examination of, and pulmonary artery, 771*
  transposition, complete, of, and pulmonary artery, 108
Aortitis, syphilitic, combined, and rheumatic disease of heart, 672
Arana, R., Castex, M. R., Ramirez, R. L., and Battro, A., 507*
Arrhythmia, sinus, in presence of extrasystole, 631*
    studies of, in patients with labile circulation, 247*
Arteriosclerosis, cerebral blood flow in, 767*
  diagnosis of, in lower extremities, oscillometry in, 506*
  infection, chronic, and, 380*
  obliterans, intermittent claudication due to, effect of deproteinated pancreatic extract in treatment of, 425
Artery, coronary, disease of, drug treatment of angina pectoris, 254*
    significance of duration of $Q_3$ with respect to, 308
    syndrome from, value, diagnostic, of a triphasic rapid wave in angina pectoris and, 246*
  embolism of, 747
  innervation of, observation on, of dog, 381*

*An asterisk (*) after a page number indicates the reference is an abstract and not an original article.

Artery, coronary—Cont'd
occluded, chronically, magnitude, adequacy, and source of collateral blood flow and pressure in, 513*
occlusion of, 633*
acute of, activities associated with onset of, 434
age, sex, and hypertension in, in myocardial infarction, due to, 632*
sudden of, reflex coronary artery spasm following, 632*
of dog, 403
spasm reflex of, following sudden occlusion of other coronary branches, 632*
thrombosis of, changes in chest lead electrocardiogram in, 636*
occurrence of, in polycythemia vera, 638*
disease, experimental of, effect of sympathectomy on, 251*
occlusive of, and hyperthyroidism, rate of circulation in arteries and veins in, 519
of leg, treatment of by Sander's vasocillator, 312
organic, chronic of, 768*
lesions produced in, of dogs, by injections of lipids, 373*
occlusion of, in left upper extremity of mongoloid idiot with congenital heart disease (tetralogy of Fallot), 241
popliteal, aneurysm, ruptured, of, 471
pulmonary, aneurysm of, 562
embolism of, cardiac sequelae of, 513*
is stellate infiltration in, justified? 124*
roentgen examination of aorta and, 771*
thrombosis of, capillary rupture with intimal hemorrhage as cause of, 451
transposition, complete, of aorta and, 108
Asthma, bronchial, differentiation of left ventricular failure from, by circulation time and other criteria, 765*
experimentally produced, in guinea pigs, electrocardiographic studies in, 247*
Atherosclerosis (*see* Arteriosclerosis)
Athletics, acute cardiac damage in healthy individuals following, 629*
Atlas, Lawrence N., 506*
Atropine, paroxysmal bundle branch block converted into two-to-one bundle branch block by means of, 115
Auricle, fibrillation, benign of, with repeated emboli, quinidine in treatment of, 494
clinical and experimental of, earliest correlation of, 684
of twenty-two months' duration with return to normal sinus mechanism without aid of quinidine, 102
relation between prolonged P-R interval and, in patients with rheumatic heart disease, 1
vagal and extravagal factors in cardiac slowing by digitalis in patients with, 374*
left, mammalian, rhythmicity and automatism in, 121*
strips of, from warm-blooded animals, is there a positive inotropic action of cholin derivatives on? 245*
tremulation of, 247*
Ayman, David, and Goldshine, A. D., 246*

B

Bailey, Robert L., and Stewart, H. J., 271*
Barker, Nelson W., and Roth, G. M., 312
Barnes, Arlie R., Burchell, H. B., and Mann, F. C., 133
Battro, A., Castex, M. R., Arana, R., and Ramirez, R. L., 507*
Bayley, Robert H., 308
Beck, William C., Scupham, G. W., de Takats, G., and Van Dellen, T. R., 504*
Bed, Sanders (*see* Vasocillator)
Bellet, Samuel, Gouley, B., Nichols, C. F., and McMillan, T. M., 483
Benzedrine (*see* Amphetamine)
Bile, whole, and bile salts, effects of, on perfused heart, 171
Bisgard, J. Dewey, 250*
Blahd, Margery, Frank, I., and Saphir, O., 248*
Block, Malcolm, 684
Blood, circulation of, control of, 256 (B. rev.)
flow of, peripheral disturbance of, 384 (B. rev.)
cerebral of, in arterial hypertension, arteriosclerosis and high intracranial pressure, 767*
collateral of, magnitude, adequacy, and source of, and pressure in chronically occluded coronary arteries, 513*
peripheral, of, effect of carbon dioxide inhalation on, in normal and in sympathectomized patient, 206
in man, plethysmographic studies of, effect of smoking upon vascular beds in hand, forearm, and foot, 290

Blood, flow—Cont'd
venous of, speed of, error in sodium cyanide method of determining, 557
pressure, differential, in lesser circulation of unanesthetized dog, 122*
effect on, comparative, of amphetamine sulfate, paredrine, and propadrine, on, 89
of constriction of abdominal aorta above and below site of origin of both main renal arteries, 250*
normal, range of, 635*
postural changes in, and pulse rate, effect of fever on, 46
reactivity of, to adrenaline in first two years of life, 628*
reading of, standardization of, 95
studies of, in infants, 130*
systolic, simple method for determining, in unanesthetized rat, 249*
vessels, anomalies of, of upper limbs associated with cervical ribs, 773*
great, clinical radiology of heart and, 516 (B. rev.)
visualization of, in heart disease, 768*
peripheral, organic disease of, testosterone propionate as therapeutic agent in patients with, 515*
thoracic, visualization of, in pulmonary heart disease, 771*
Blumenthal, Basil, and Oppenheimer, E. T., 363
Blumgart, Herrman L., and Altschule, M. D., 773*
—, Katzin, H. M., and Waller, J. V., 638*
de Boer, S., 375*
Bohning, Anne, Katz, L. N., Robinow, M., and Gertz, G., 25
Book review, Adventures in respiration, 258
Aktuelle Kreislauffragen, 641
Angina pectoris: nerve pathways, physiology, symptomatology, and treatment, 640
Atlas of clinical phonocardiography, 382
Cardiovascular disease in general practice, 383
Cardiovascular diseases, their diagnosis and treatment, 641
Clinical radiology of heart and great vessels, 516
Control of circulation of blood, 256
Electrocardiographic changes in health and disease during experimental anoxemia, 257
Elements of clinical physiology of the circulatory apparatus, 384
Book review—Cont'd
Peripheral disturbance of blood flow, 384
Peripheral vascular diseases, 517
Registration and interpretation of cardiac activity, 256
Rheumatic diseases of the circulation, 383
Symposium on the synapse, 642
The patient as a person, 643
Bouvrain, Yves, 251*
Boyd, Linn J., and McGavack, T. H., 562
—, and Scherf, D., 641
Boyer, Norman H., 115
Boyle, Robert W., McDonald, C. H., and DeGroat, A. F., 201
Brain disease, chronic rheumatic, as cause of mental disorders, 379*
Braun-Menendez, E., and Solari, L. A., 126*
Breathing, holding of, test, 246*
Brown, Morton G., and Riseman, J. E. F., 150
Brucer, Marshall, and Robinson, S. C., 635*
Bruetsch, Walter L., 378*, 379*
Bruger, Maurice, and Miller, J. H., 329
Buchbinder, William C., and Saphir, O., 510*
Burch, George E., 102
Burchell, Howard B., Barnes, A. R., and Mann, F. C., 133
Burger, R., 375*
—, and Wuhrmann, F., 376*
Burke, Mead, and Middleton, W. S., 634*

C

Calcium, synergism of, and digitalis, 505*
gluconate, measurement of circulation time with, in patients receiving digitalis, with electrocardiographic studies, 228
Calô, A., 382
Campbell, Maurice, and Elliot, G. A., 507*
Capillary, blood, character and distribution of, 248*
rupture of, with intimal hemorrhage as cause of pulmonary thrombosis, 451
Carbon dioxide, inhalation of, effect of, on peripheral blood flow in normal and sympathectomized patient, 206
use of, as test of circulation time, 374*
Cardiovascular system, changes in, in essential hypertension, with special reference to electrocardiogram in hypertension, 636*

Cardiovascular system—Cont'd
complications in, from fracture, 772*
disease of, 641 (B. rev.)
congenital of, roentgenology of, 771*
in general practice, 383 (B. rev.)
effect of fluid administered intravenously on, 628*
syphilis of, necropsy survey of, with particular reference to its decreasing incidence, 248*
Cash, James R., and Wood, J. E., Jr., 767*
Castaigne, J., and Dodel, P., 384*
Castex, M. R., Arana, R., Ramirez, R. L., and Battro, A., 507*
Ceylon, rheumatic heart disease as met with in hospital practice in, 766*
Chamberlain, E. Noble, and Hay, J. D., 377*
Chamberlain, F. L., Scudder, J., and Zwemer, R. L., 458
de la Chapelle, Clarence E., and Kossmann, C. E., 344, 352
Chasis, H., Smith, H. W., Rovenstine, E. A., Goldring, W., and Ranges, H. A., 253*
Childhood, heart disease, congenital in, with special reference to prognosis, 80
Children, cardiac enlargement in, with rheumatic heart disease, value of special radiologic procedures in detecting, 213
school, incidence of organic heart disease in, 705
Cholin, derivatives of, action, inotropic positive, of, is there a, on auricular strips from warm-blooded animals? 245*
Christianson, Oscar O., 373*
Circulation, coronary insufficiency, experimental, of, action of strophanthin in, 628*
electrocardiogram in, hemorrhage and reinfusion, 248*
disease, rheumatic, of, 383 (B. rev.)
increased, voluntary, 629*
peripheral, disturbance of, action of strophanthin in, 245*
pulmonary, visualization of, in heart disease, 768*
rate of, in arteries and veins of man in hypertension, of orthostatic hypotension, and of effect of sympathectomy, 537
of normal subjects and of those with occlusive arterial disease and hyperthyroidism, 519
readjustment of, during exercise, to that following adrenalin intravenously, resemblance in man of, 245*
Circulation—Cont'd
time of, differentiation of left ventricular failure from bronchial asthma by, and other criteria, 765*
measurement, with calcium gluconate in patients receiving digitalis, with electrocardiographic studies, 228
use of $CO_2$ inhalation as test of, 374*
Circulatory system, physiology, clinical, of, 384 (B. rev.)
Cirrhosis, cardiac, of liver, 638*
Cold-pressor reaction in normal subjects and in patients with primary (essential) and secondary (renal) hypertension, 329
Collens, William S., and Wilensky, N. D., 517
Comeau, Wilfrid J., and White, P. D., 334
Comroe, Julius H., Jr., 504*
Conduction defects, persistent, following diphtheria, 507*
time, delay in, relation between, and auricular fibrillation in patients with rheumatic heart disease, 1
Conductivity, relative of tissue in contact with heart, 244*
Contratto, A. W., Robinson, R. W., and Levine, S. A., 126*
Convallan, in cardiac therapy, 444
Cottenot, P., Laubry, C. H., Rositier, D., and Heim, R., 516
Cowan, John, 125*, 376
Crago, F. Hughes, and Spink, W. W., 515*
Cramer, H., and Schlomka, G., 631*
Crawford, J. Hamilton, and Gubner, R., 8
—, —, and Schnur, S., 374*
—, —, Smith, W. A., and Ungerleider, H. E., 729
Crynes, S. F., and Hunter, W. C., 635*
Cyanosis, infrared photographic demonstration of superficial venous pattern in congenital heart disease with, 282

D

Dack, Simon, Horn, H., and Friedberg, C. K., 513*
—, Master, A. M., and Jaffe, H. L., 254*, 434, 632*
Day, Richard, and Klingman, W. O., 253*
Death, sudden and unexpected, from acute interstitial myocarditis, 765*
DeGroat, A. F., Boyle, R. W., and McDonald, C. H., 201
Deepe, B., and Diefenhardt, H. H., 245*
Depropanex (*see* Pancreas, extract of)

Diabetes, coma from, systole in insulin shock and, 247*
Diet, alterations of cardiac minute volume by, 630*
Dietrich, Siegfried, 383
Digestion, influence of, on rate of circulation in arteries and veins of man, 546
Digitalis, patients receiving, measurement of circulation time with calcium gluconate in, with electrocardiographic studies, 228
should it be administered to patients with pre-existing partial heart block? 733*
synergism of calcium and, 505*
use of, in heart failure with normal rhythm, 130*
vagal and extravagal factors in cardiac slowing by, in patients with auricular fibrillation, 374*
a-N-d i m e t h y l-p-hydroxyphenethylamine, mechanism of arterial hypertension induced by, 380*
Diphtheria, persistent conduction defect following, 507*
toxin of, effect of, upon heart, 201
Dodel, P., and Castaigne, J., 384*
Dow, Philip, and Hamilton, W. F., 122*, 125*
Dressen, M., and Schlomka, G., 632*
Drinker, Cecil K., 389
Dry, Thomas J., and Willius, F. A., 765*
Ductus arteriosus, patent, surgical exploration and closure of, 772*
Duntley, S. Quimby, Edwards, E. A., and Hamilton, J. B., 515*
Duryee, A. Wilbur, Fisher, M. M., and Wright, I. S., 425

E

East, Terrence, 383*
Edens, E., 639*
Edwards, Edward A., 768*
—, Hamilton, J. B., and Duntley, S. Q., 515*
Edwards, Joseph C., and Vander Veer, J. B., 127*
Effort, electrocardiographic alterations after, in normals and patients with angina pectoris, with special reference to chest lead, 245*
index, economy of, for heart of normal and hypertensive subjects, 123*
Electrocardiogram, alterations in, after effort, in normals and patients with angina pectoris, with special reference to chest lead, 245*
changes in, associated with experimental alterations in blood potassium in cats, 458
Electrocardiogram, changes—Cont'd
in health and disease during experimental anoxemia, 257 (B. rev.)
precordial leads, pathogenesis of bundle branch block as elucidated by, 509*
chest lead, changes in, in coronary thrombosis, 630*
multiple in man, value and significance of, 25
clinical significance of right axis deviation in, 334
findings in, in cases of ventricular aneurysm, 630*
four leads, new diagnostic features in, of angina pectoris, 128*
in aged, 692
in experimental coronary insufficiency, hemorrhage, and reinfusion, 248*
in hypertension, cardiovascular changes in essential hypertension with special reference to, 636*
in hyperthyroidism, 632*
in single and double ovum twins, 631*
interpretation of calcareous stenosis of aortic valve, 765*
leads, precordial of, form of, effect of posture on, 271
measurement of circulation time with calcium gluconate in patients receiving digitalis, by, 228
normal, 377*
of dog, after phlorrhizin poisoning, 245*
picture of, of experimental localized pericarditis, 133
precordial, in myocardial infarction, in diffuse lesions, 352
in infarction of posterior wall of left ventricle, 344
lead, 126*
prognosis by, 631*
relation between prolonged P-R interval and auricular fibrillation in patients with rheumatic heart disease, 1
researches in, 375*
significance of duration of $Q_3$ with respect to coronary disease, 308
showing "second positive wave of QRS" in Lead III, 377*
small and absent initial positive deflections in chest lead, 127*
strophanthin, 247*
studies by, in experimentally produced asthma in guinea pigs, 247*
T wave of, and potassium, 246*
tendency of, to become normal in angina pectoris patients whose adrenals have been irradiated, 639*
triphasic rapid wave of, diagnostic value of, in angina pectoris and coronary syndrome, 246*

Electrocardiogram—Cont'd
ventricular, complexes, variform of, ventricular tachycardias with, 124*
Electrocardiography, clinical, chest leads in, 125*
Electrode, precordial, new, 94
Eliaser, Maurice, Jr., and Konigsberg, J., 630*
Elliot, G. A., and Campbell, M., 507*
Embolism (*see* organ affected)
Emerson, Paul, Gross, R. E., and Green, H., 772*
Endocarditis, acute in wild animals with especial reference to opossum, 166
bacterial, due to streptococcus fecalis, 753
mechanism of localization of vegetations of, 129*
subacute, and chronic verrucose rheumatic, histopathology of psychoses with, 378*
caused by type XVIII pneumococcus, 500
evaluation of sulfanilamide in treatment of patients with, 515*
heart failure in, 510*
incidence and pathogenesis of myocardial lesions in, 766*
experimental, in dogs, 248*
streptococcus viridans, clinical-pathologic analysis of experience in Wisconsin General Hospital, 634*
England, Albert C., Jr., Harris, A. W., and Rosenbaum, F. F., 759
Epstein, Bernard S., 282
Esler, James Wallace (Memorial), 120
Essex, Hiram E., Wakim, K. G., and Mann, F. C., 171
Evans, Courtenay, 630*
Ewert, B., and Kallos, P., 247*
Exercise, influence of, on cardiac output in congestive heart failure, 252*
on rate of circulation in arteries and veins of man, 546
lactic acid production during rest and after, in subjects with various types of heart disease, with special reference to congenital heart disease, 374*
tolerance for, effect of oxygen on, of patients with angina pectoris, 150
Extrasystoles (*see* Heart, ectopic contractions)
